CAPT. EDDIE RICKENBACKER, FLYING ACE, RESCUED BY NAVY FROM RUBBER LIFEBOAT, WHICH BOBBED AROUND IN PACIFIC OCEAN SINCE OCT. 21ST; FIVE OTHERS RESCUED

All But One of 8 Men on Plane Which Was Forced Into Sea While On Secret Mission To Pacific War Theatre Are Alive—Sgt. Caczmarczyk Was Buried at Sea—Three of Group Are Found On An Island

(By International News Service)

WASHINGTON, Nov. 14—Capt. Eddie Rickenbacker, World War I flying ace and death-cheating traveler on the world's air lanes, has been rescued by the Navy from a rubber lifeboat which had bobbed around in the South Pacific Ocean since October 21st, the Navy announced today.

"Rick" was picked up at sea with two of his flying companions by a Catalina flying boat 600 miles north of the Samoan Islands—peace time air stop of the clipper ships on their route from Honolulu to Sydney, Australia.

Three other members of Rickenbacker's flight were located on a small island, the announcement said, and a Navy medical officer has been flown there to aid them.

Thus, all but one of the eight men on the plane which was forced into the sea while on a secret mission to the South Pacific war theatre for Secretary of War Stimson, have been found alive. The eighth man, Sgt. Alexander Caczmarczyk, of Torrington, Conn., died several days ago and was buried at sea.

Rickenbacker, and Col. Hans C. Adamson, Washington, D. C., one of the two men rescued with him, were reported in good condition. The third man, Pvt. John F. Bartek, of Freehold, N. J., was in a serious condition, but expected to recover.

The second group, located on the island by another flying boat, consisted of Lieut. James C. Whitaker, Burlingame, Cal., Lt. John J. De Angelis, Nesquehoning, Pa., and Staff Sgt. James Reynolds, Fort Jones, Calif., all of the U. S. Army. Their condition is unknown.

Capt. William T. Cherry, Jr., of Abilene, Texas, Rickenbacker's pilot on the flight, was picked up at sea by the Navy on November 12th.

The Navy's announcement today indicated that the rescue took place near the Phoenix Islands, which are about 600 miles north of the Samoan group and approximately 2,000 miles south of Hawaii.

THE WAR AT A GLANCE

By International News Service

American and British troops reportedly including large contingents of paratroops, were massed along the Tunisian border today as the French garrisons of the Protectorate fought off Axis landing attempts.

While there was no official statement from Allied headquarters, pilots of observation planes reported heavy fire from artillery batteries at Tunis and said the skies were streaked with the flashes of tracer bullets as French colonials fought the Germans.

Presumably the Allied army was waiting on the development of political negotiations between Admiral Jean Francois Darlan and French military and civil authorities in Tunisia. It was reported that Darlan had accepted full responsibility for the governing of French North Africa with approval of American authorities.

While the French fought the Axis on the southern shore of the Mediterranean, RAF bombers from England struck on the opposite shore of Mare Nostrum in a heavy attack aimed apparently at Genoa. Since the British Eighth Army started its drive from Egypt three weeks ago, the north Italian port has been bombed several times in the effort to disrupt Axis shipping lines to Africa. It was last bombed on successive nights November 8 and 9.

While the Axis struggled to establish itself in Tunisia, Nazi field marshal Erwin Rommel's Afrika Korps was rushing back towards Tripoli, just ahead of the pursuing Eighth Army. The last reports put Rommel's force somewhere beyond Tmimi, 60 miles west of Tobruk which fell to the British Friday morning.

The British commander, Gen. Bernard L. Montgomery, in a triumphal order of the day to his troops, said not a single Axis soldier remained in Egypt alive except prisoners. The latest official count of captured was 30,000.

In Moscow Premier Joseph Stalin hailed the Allied African campaign as turning the tide of war against the Axis and presaging the early doom of Hitlerism. The Army newspaper Red Star declared that recent German attacks had shown marked weakness in tank and air support. This was taken as the first evidence that the German High Command has been forced to divert strength from the Eastern front to meet the Mediterranean threat.

In the fighting along the Volga-Caucasus front, Soviet lines were intact. Not a foot of ground has been lost in Stalingrad, where the heaviest German assaults were concentrated, said a communique.

Allied bombers continued to smash at Japanese naval and transport ships south of Bougainville Island. Two cruisers were hit, an 8,000-ton transport set afire and destroyers probably damaged by near misses, a communique from Gen. Douglas MacArthur's headquarters reported.

The Navy announced the almost total destruction of a Japanese torpedo-bomber squadron which attacked American warships which shelled Guadalcanal for ten hours on Thursday. Of the force of 23 bombers and 8 Zero fighters, only one escaped. Navy Grumman fighters shot down 21 enemy planes and anti-aircraft guns on our warships brought down 9.

Japanese invaders of New Guinea faced disastrous defeat today as they were driven further back upon their coastal base at Buna. In three days' fighting around Olvi and Gorari, 800 were slain by an actual count of bodies after the enemy was driven from these areas.

Planning To Raise Funds To Send Soldiers Gifts

Plans are being made for one of the biggest card parties ever held in this section when the "36 for Victory" group will stage an affair in St. Mark's Hall, Radcliffe street, on the evening of November 19th. The party is to be given to raise funds for gifts for the men who are in the service.

The games to be played are bridge, pinocle and "500." The table assignments will be made at 8.30 and a capacity attendance is anticipated.

An exceptionally large number of prizes have been collected for this event and include turkeys, Nylon hosiery, card tables, traveling bags, sport skirts, and numerous other articles. Twenty cakes are to be awarded winners of games.

The committee handling the arrangements include Mrs. Samuel Freedman, Mrs. Nathan Grodsky, Mrs. Marty Hopkins, Mrs. Joseph Singer, and Mrs. Phillip Popkin.

Many letters are being constantly received from men in the service who write in appreciation for the gifts which they have received from the "36 for Victory."

A letter was recently received from Charles Strong, U. S. C. G., Military Police, Curtis Bay, Md. Strong wrote: "It is not the cigarettes alone but the thought behind the gift. If everyone feels the way I do about receiving such a gift you can be sure that your work is not in vain."

Allen W. Lebo, Sgt., U. S. M. C., writes: "Received your gift of cigarettes for Christmas. Thanks for the organization back of the move."

TO HANDLE RUBBER BOOT, SHOE RATONS ENTIRELY BY MAIL

Board Has Right, However, To Ask Personal Appearance, If Necessary

IS AN AID TO TRAVEL

Rules of Procedure Are Outlined by Bucks County Board

Application for rationing certificates authorizing purchase of men's rubber boots and rubber work shoes may be handled entirely by mail, announced the Bucks County War Price and Rationing Board, today.

Moreover, where the local board approves an application, the certificate may be mailed by the board to the prospective purchaser at his request. However, the board chairman said that the local board reserves the right to have the applicant appear in person if it wishes to question him.

Explaining this provision which has been made to take care of applicants who live in out-of-the-way places or whose working hours are such that getting to the board's offices would be an inconvenience, Bucks County War Price and Rationing Board, today.

Remember When They Sold Liberty Loan Bonds?

(By "The Stroller")

During World War I the campaign to sell Liberty Bonds was pushed with considerable vigor in this area. Noonday meetings were held at the various war time as well as other industries, at the Merchants Shipyard here and the Traylor Shipyard in Cornwells Heights.

John Dugan hands me a clipping taken from the Courier of May 1, 1918 which gives some idea of the progress of the drive.

The clipping reads: BRISTOL, May 1.—A big boost came to the Lower Bucks County district of the Liberty Loan last night when the Merchant Shipbuilding Corporation sent in \$529,000 subscriptions from 6000 workmen. As a result permission was obtained from Washington to fly a service flag with eight gold stars.

150,000 Pa. Youths Await Call in Teen-Age Draft

HARRISBURG, Nov. 14—(INS)—Approximately 150,000 Pennsylvania youths today awaited a call to the colors as President Roosevelt signed the teen-age draft bill providing for the induction into the Army of boys 18 and 19 years of age.

According to State Selective Service Headquarters, the calling up of the youths will generally begin in January and will proceed at a fast pace. A "very few" may be called up in December. Following their induction, married men with wives but no children will be called up.

Because it will take at least a month to process the teen-age group, "a few married men in each local board" will probably have to be called up in December, said Col. Benjamin F. Evans, acting state draft director. No married men with children will be inducted, however, it was emphasized, unless they were married after Pearl Harbor or when their induction was considered imminent.

The wedding will be followed by a reception at the executive mansion, after which the couple will leave for a trip to Canada. Approximately 800 people have been invited to witness the church ceremony, the State's first wartime wedding of a governor's daughter.

Miss James is 27 years old, while the groom, the son of Mr. and Mrs. John T. Simon, is 32. He graduated from the Pennsylvania State College and the Dickinson School of Law, Miss James is a graduate of Syracuse University. She also attended Wilkes-Barre Institute and Plymouth High School.

The first was that of the Governor himself, who married the former Mrs. Emily Radcliffe Case at Doylestown on October 1, 1940. The Governor's first wife died in 1935. Miss James acted as "first lady" until the Governor's remarriage.

EVERY UNIT OF CIVILIAN DEFENSE GROUPS IN BRISTOL TOWNSHIP TO BE GIVEN RIGOROUS TEST TOMORROW AFTERNOON

Every unit of the Civilian Defense organization of Bristol Township will be given a rigorous test for accuracy and ability when the Township Council stages its first civilian Defense Mobilization tomorrow afternoon. The test will take place in all parts of the Township between the hours of two and four o'clock.

Original plans to hold the affair for a one hour period were cancelled and stretched into two hours when it was learned that too few inter-sectional incidents could be arranged for such a short time. It is announced that no air raid whistles would be used, that traffic will not be interfered with and that normal life will go on as usual. The test is for members of the organization only.

A number of incidents which will be known to only three men will be set

in different parts of the township. These incidents will be arranged by James E. Harris, Director; David Sheerer, Chief Warden; and Elmer VanSant, Area Police Chief. The reasons for these plans is to learn the ability of the workers in the field and to give the new information posts a thorough test.

A throng of "casualties" bearing tags denoting "injuries" will be spread throughout the area by the transportation unit before the two o'clock deadline. These "casualties" will be found by wardens and police and treated accordingly. They will then be taken to casualty stations where medical corps workers will examine the work done and report their findings.

A number of homes will be "bombed" and the occupants evacuated to evacu-

LAFAYETTE, WE ARE HERE

In going into French Africa the American forces did what the informed predicted they would do—start a diversionary or sort of second front drive in a sector least thought of by the radio "commentators."

France was mentioned most often by these swivel-tongued gentry of the ether as a probable site of the second front. Norway received the second largest number of votes, and Sweden came in for honorable mention along with Holland, Italy, Spain, etc.

In going into French Africa America did not make the mistakes it made in the Philippines and the Solomons—too little in the case of the Philippines and divided command in the case of the Solomons. Apparently all the reinforcements needed can be unloaded at the bases of operation of the American invading forces. One general is in supreme command of the effort.

While there are always possibilities of surprises in actions of this sort, engaged in thousands of miles from home, Allied strategists think the situation is permanently under control. They are convinced that Hitler and his ally, Benito Mussolini, are literally shaking in their boots—especially the latter. They are as firmly of the opinion that old Petain and his coterie of aides, who resemble nothing so much as the Franco set-up in Spain and whose aims are of course identical with those of the Franco outfit, are impotent. They profess complete contempt, as does Washington, of the course of Petain and his crew.

Absence of any real resistance by the French at Algiers and several other points is proof that the French people are opposed to Petain, Laval and Hitler. Obviously the Vichy gang had sent the elements in the armed forces that were supposed to be the most like Petain to these spots of possible danger. That they would not fight the Americans with any enthusiasm corroborates the opinion widely held in Allied circles that the great mass of the French awaits only the day of deliverance from everything Petain and Hitler represent. It is difficult to see how any Frenchman whose mind has not been drugged by the influence of the dark age could feel differently.

FOOD WASTE AND DRINK

Recently it was estimated that every day in America enough food is wasted to feed a large city. In England people are forbidden by law to waste food. Under a wartime order, a person who wastes even a crumb of food fit for human consumption is liable to prosecution. He can be fined \$2,000 or sent to the hoosegow for six months.

One good result of the law, insofar as the English are concerned, was the blotting out of the silly, prohibition-like law which almost forced people to waste food. It was a licensing law resembling the old Rameau law in New York state, which forbade the sale of intoxicating drink on Sundays unless food was ordered with them. The result of that law in New York was that one sandwich did duty for hours, appearing again and again before patrons.

The British licensing law was almost as bad. It provided that certain clubs and restaurants, while not being allowed to serve intoxicating beverages alone after 10.30 o'clock, could continue to serve them for another hour provided food was bought at the same time.

We thank thee, O God, for thy help in ages past, for thy presence with our forefathers who came to this country to establish a land of freedom and religious liberty, for thy presence with us in the years which we have spent with thee. Be our hope for years to come on this earth—be for us the foundation upon which we might erect a fellowship of human beings which will stand the test of time. Be for us an eternal home, to which we might repair when we are delivered from this weary road, and in which we might enjoy the fellowship and the peace of an eternity in thy presence. Through Jesus Christ our Lord, Amen.

DISCUSS PLANS FOR FORTHCOMING SEASON, BRISTOL BASKETBALL LEAGUE; MAY NOT BE ABLE TO PROCURE FLOOR

Plans for the forthcoming season were discussed at a meeting of the Bristol Basketball League held in the St. Ann's A. A. club-house Thursday night with President Thomas Juno presiding.

It is not known whether the circuit will secure a playing floor but the managers formulated their plans so that if a floor is secured the season will not be delayed and will probably start the last week of this month.

One thing definitely decided upon is that the loop will be composed of six teams and the franchises of these clubs must be posted at another meeting to be held Monday night. All clubs not having forfeit fees at the next meeting will be out, even though they had franchises last season.

A committee reported that both Fleetwings and Manhattan Soap are considering entering the league. Manhattan, winners last season, lost most of its players to the armed forces, but according to word received last night may be able to mould together another club to enter.

If Fleetwings enters, it is a known fact that the aircraft workers will have one of the strongest teams in this vicinity as most of the players from other clubs are now employed in the plant and may play with the Fleetwingers. Representatives of the aircraft firm stated that they could not be represented at last night's meeting but would have one at the next meeting.

Franklin, Fifth Ward, Profy's, and St. Ann's are on the undecided list. Only Profy's was represented last night and he expressed the doubt whether the Profy team will be in the loop. The other teams definitely in are: Diamond, Joseph Diamanti; Rohm and Haas, Robert Weideman; Hunter's, Joseph Valenti; and Voltz-Texaco, Paul Voltz.

Henry Morgan was re-appointed referee for the season.

Newtown Boro' Pays Last Of Its Outstanding Bonds

NEWTOWN, Nov. 14.—With the payment of the last out-standing bonds of Newtown borough, the borough becomes free of all debt. Borough Treasurer W. Aubrey Merrick reported this fact to the meeting of borough council this week. In addition there is a balance of \$906.42 in the bond account which council will presumably in the 1943 budget transfer to the general fund.

Councilmen did not commit themselves at the meeting but the extra amounts in the general fund had

The regrading at Court and Mercer streets was reported completed but at Greene and Liberty the streets still remain closed.

Here a charge of grades was found necessary when Greene street was resurfaced. The work was started but the borough has experienced difficulty in getting tarmac to lay the new surfaces.

To Handle Rubber Boot, Shoe Rations Entirely by Mail

Continued From Page One

Price and Rationing Board outlined the following procedure:

1. Get two copies of the application form, R-603, from the local board. This you may do by going in person, sending someone, phoning, or writing.
2. Fill out both copies of the application. Where the application form calls for identification, fill in the serial number of your War Ration Book No. 1 (sugar book)—or your driver's license, or social security or selective service card—or something that you can show to your retailer when you go to buy your rubber boots or rubber work shoes.

State what kind of work you do and explain in detail why you must have a new pair of rubber boots or rubber work shoes in order to stay on your job. Agree to turn in any completely worn-out rubber boots or rubber work shoes that you may own.

3. Take, send by representative, or mail both copies of your application to your local board.
4. If the board approves your application, you will receive a three-part certificate, form R-605. This permits you to buy the type of footwear you need, which will be checked on the certificate.

5. Take or mail parts 1 and III to the store or company from which you buy. This must be done within 30 days of the date of your certificate.
6. Anyone who goes in person to a store to make the purchase must show the type of identification which is written on the certificate, described in instruction No. 2, above.

7. Turn in your worn-out rubber footwear to the place at which you purchase replacements, or, if you order by mail, to the turn-in station named on your certificate. The person to whom you turn it in must sign part II of your certificate which you must keep for six months. This is your proof of turn-in. Your retailer is not required to make any allowance on the price of new footwear for the old footwear turned in.

An ordinance amending the health ordinance was passed on all readings. This provides that all cesspools must have air vents constructed of cast iron, rather than terra cotta, which was formerly used.

The report of the Board of Health showed no contagious diseases reported, four nuisances reported and abated and one cesspool permit issued. FASHION PARADE

By Orry-Kelly

(Famous Hollywood Stylist Writing For International News Service) HOLLYWOOD, Cal. — (INS) — War-time handbags gain distinction from their unusual shapes, their tricky trims and novel materials. The same ingenuity that has been devoted to clothes styling is expressed in the new bags, with the result that they are at once practical, durable, and tasteful but still definitely unique in detail and silhouette.

Jane Wyman, Warner Bros. player to be seen next in "Princess O'Rourke," displayed a very stunning bag the other evening when she dined at The Players. Especially designed to accompany a high-crowned chapeau of red felt and green chenille, the bag was of green chenille with red felt trimming notes. An under-arm style, it was very long and very narrow. The gathered flap and body of the bag were of chenille, while the top, consisting of six tubes, was covered with red felt.

Irene Manning, who recently became enamored of Indian jewelry while on location at Gallup, New Mexico, with "The Desert Song" company, has attracted much attention to her stunning

black suede bag because she has trimmed it with a silver and turquoise pin. The bag is a large square shape, the flap in the form of a triangle. The pin, which is set in the center of the flap, is a carved turquoise mask showing curled strips of silver for the hair. Outlining the pin is a narrow hoop of silver.

Soft grey feathers, laid under a transparent plastic pane, lent distinction to the striking bag carried by Ida Lupino the other evening at Luce's. Ida, who will be seen next in Warner Bros. "The Hard Way," wore a dressy suit of grey wool with black accessories. Her high-crowned cloche of black felt was accented with a brim-facing of layers of tiny, soft grey feathers.
